LE MOT DU MAIRE

the city of briançon is pleased to welcome the best international climbers and enthusiasts from around the world and more than 20,000 spectators over a week on the occasion of the 27th edition of the world climbing.

This year, besides the usual ingredients that make the success and fame of the briançon stage the world continues its ascent with a program that continues to grow. alongside the two days of the world cup, the world cup is now a full week of climbing and animations dedicated to mountain competitions.

A multitude of new activities for young and old will discover: demonstrations and introductions, fun workshops for children, film screenings, exhibitions discovery, mountain climbing and living ... from the youngest novice climber to seasoned mountain, there will all levels and all tastes !

I congratulate and thank the organizers, partners, sponsors and all those who work behind the scenes to raise this event to the top. their involvement, as far as their financial support are essential for this great festival of outdoor sports event remains accessible to all thanks to free all events.

Block your week of july 16 to 23 to taste at the foot of berwick wall the festive atmosphere of the inevitable mountain of your event been in the hautes-alpes.

GREAT SHOW AND GUARANTEED SHIVERS !

COCOTTE OUR INTERVIEW !

WE ASKED SALOME TO ANSWER A FEW QUESTIONS ...

Can you introduce yourself briefly?

My name is Salome ROMAIN, aka pot, I was born in Briançon in 1996 where I lived until my class 1E. I am a difficulty climber and particularly a "competitor". After high school I went to school occupational therapy at the Medical Faculty of Lyon. I reconcile my studies with the sport of high level, as saying that I do not have time to get bored!

I'm rather greedy, optimistic, dynamic, organized and autonomous. I love the thrill, sports activities but especially not jogging !

What is your background ?

During my youth I practiced many sports such as skiing, badminton and dance. I discovered climbing at the age of 6 years with my brother Manu himself part of the top 10 world until the end of his career in September 2014. My parents enrolled me so club Briançon and it is with them that I learned, grew and grew, especially thanks to Manu and Serge BLEIN. I then partly France Voiron pole for my senior year to take advantage of large structures and reach the highest level. I am currently sporting high-level member of the France team young (small to junior) and since this year a member of the senior elite team of France.

How did you discover climbing ?

Making climbs club games and that is why today every new exercise in training is a new game, each new wall is a new toy. In fact I continually play and I like challenges that we propose. In terms of the competition, I am very young climb on the podium then obviously it made me want to go further.

What is your vision on your sport ?

Escalating demand a multitude of physical qualities but also an important mental strength. If we have shortcomings, we must work constantly and seek to compensate. For me climbing is like "a drug" is a daily need.

How is the training ?

In As I increased the quality and quantity of training, especially since I joined the France Pole. I climb about 6 days out of 7 with regular double sessions in the week with a France team training 2/3 days every 2 weeks.

What is your charts?

In youth categories :

- ▷ many victories and podiums in championships and cups of France
- ▷ podiums in European Cups and Championships
- ▷ two podiums in the World Championship.

In seniors :

- ▷ several podiums on the national stage regularly in the top 15 in World Cups
- ▷ 11th at the last world championship
- ▷ 9th at the latest "World Game"
- ▷ 6th in the World Cup 2015 in Belgium.

What are your goals ?

I wish to regularly make final World Cup (first 8 places) and approach the podium as well. In the long term, the gold makes me dream ...

A word to add ?

Thank you to all those who are part of history and who support me in this course not always so simple: the family, the sponsors, the city of Briançon, the coaches of the France team and buddies of "french team" !
